

Supervision Release Form

The Governor's School for Agriculture has planned many activities which will involve the supervision of your son or daughter. However, during free time and activity periods students will have the opportunity to explore the campus without direct supervision. Students are able to go visit the student center, the bookstore, the Duckpond, or any other place on campus they may choose. Students are always required to be in groups of two or more students.

Please sign below to allow your son or daughter to visit campus sites unsupervised during designated free time.
